

ELWEMA

AUTOMOTIVE GMBH

TEAMWORK!

The perfect and apparently easy interplay of all components brings success. We live by this motto at ELWEMA Automotive and can thus continuously develop new and highly innovative manufacturing solutions in cleaning, testing and assembly technology for our customers. Today, engines, steering systems and transmissions are our focus for all leading automobile manufacturers worldwide. In the future, we want to increasingly support our customers in the automotive industry with innovative technologies in the field of drive technology (e-motor, battery production,...). In the future, we want to further expand our customer base based on our prominent level of technological expertise in new sectors.

We are currently looking for our location in **Ellwangen**

young professionals as **AUTOMATION SPECIALIST** M/F/D for PLC programming

YOUR TASKS

- Software design including the programming of interfaces to higher-level control and process acquisition systems
- Commissioning of the machines at our location, as well as at our customers in Germany and abroad as well as implementation of service and training assignments on site at our customers sites
- Validation of the programs created using virtual commissioning
- Assistance in validating of electrical installations

YOUR QUALIFICATION

- Training in the technical field with advanced training as a technician m/f/d or comparable educational background
- Basic knowledge of the development environments from Siemens (Step 7, TIA Portal) and/or Rockwell Automation (Studio 5000)
- Good MS Office skills
- High level of independence, flexibility in terms of time
- Good knowledge of english
- Willingness to travel (approx. 30%)

YOUR PERSPECTIVE

- Varied and challenging tasks in an innovative engineering company
- Promotion and further development of your strengths
- Flat hierarchies and short decision-making processes
- Team-oriented work in a creative environment and in a modern workplace
- Pleasant and motivating working atmosphere in a trusting and open corporate culture
- Company social benefits
- Corporate benefits

Are you fascinated by perfect technology?? If so, we're looking forward to receive your application.
